

OUR WINE

We are pleased to be in partnership with Vintage Roots, who have been the UK's specialist supplier of organic wines for over 31 years. Our team have chosen these wines to offer a range not only matching our food menu but to give a variety of choices for all palates and occasions. We believe the choice to have an organic wine list reaffirms our commitment to connection with the land, in this case, worldwide. We are also proud that many of the wineries listed are award winning in the mainstream wine world.

We hope you enjoy them and since they are also available in our Farmshops, you can continue to enjoy them at home if you wish!

All of our wines are Vegan, with the exception of Number 18, which is Vegetarian.
